### Panorama Antennas Revised Position Statement on REACH

REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals, EC 1907/2006) is the European Union's regulation for the control and management of chemicals that came into force on 1 June 2007. Panorama Antennas wholeheartedly supports the objective of REACH; to enhance public health and safety and the protection of the environment and continues to implement REACH as far as is possible despite the UK's exit from the EU.

### Panorama REACH Implementation

Panorama Antennas Ltd is a manufacturer of antennas for mobile communications and closely related products. We are a Non-EU Company under REACH and are not required to register and apply for REACH authorisation ourselves. Under normal and reasonably foreseeable conditions of use, none of the substances or articles we supply will not discharge any further substances

As part of our commitment to REACH compliance Panorama only purchases and supplies:

- Substances that are registered under REACH or exempt from registration.
- Articles and Complex Objects, which are, to the fullest extent possible, free from Substances of Very High Concern (except as detailed in the Appendix).
- Substances and articles that do not contain substances listed under REACH Annex XIV.
- Substances and articles that do not contain substances listed under REACH Annex XVII.

This statement applies to all substances, complex objects and articles under the responsibility of the Company, including packaging materials and supplies by third parties under our authority.

On behalf of Panorama Antennas Ltd:

Name: Jan Jesman
