

Why Use SMART for Your Memory Needs?

SMART Modular Technologies is an established leader in specialty memory, storage, and hybrid solutions, including DRAM, embedded flash memory, and solid state storage solutions.

Longevity

- Ability to weather all market cycles
- 30+ years experience in the memory business
- Long-term experience supporting all types of customers and applications
- Experienced management team

Financials

- Low risk of failure and high reliability for long-term support
- Publicly listed in NASDAQ under ticker "SGH"
- \$2.3B in Sales for FY2018

Long-term partnerships with suppliers

- Superior buying power compared to other 3rd party module makers
- Long-term supplier relationships leverages pricing and component availability

Enduring partnerships with customers

- Steady, uninterrupted supply chain
- Able to provide long-term, consistent support through all market and technology cycles

Engineering

- Focus on leading-edge capabilities and preparation
- Focus on continuity-of-supply solutions
- Focus on legacy support

Test

- In-depth knowledge and expertise of memory technologies
- Ability to identify and solve problems
- Long-term supplier of Enterprise Memory

Quality

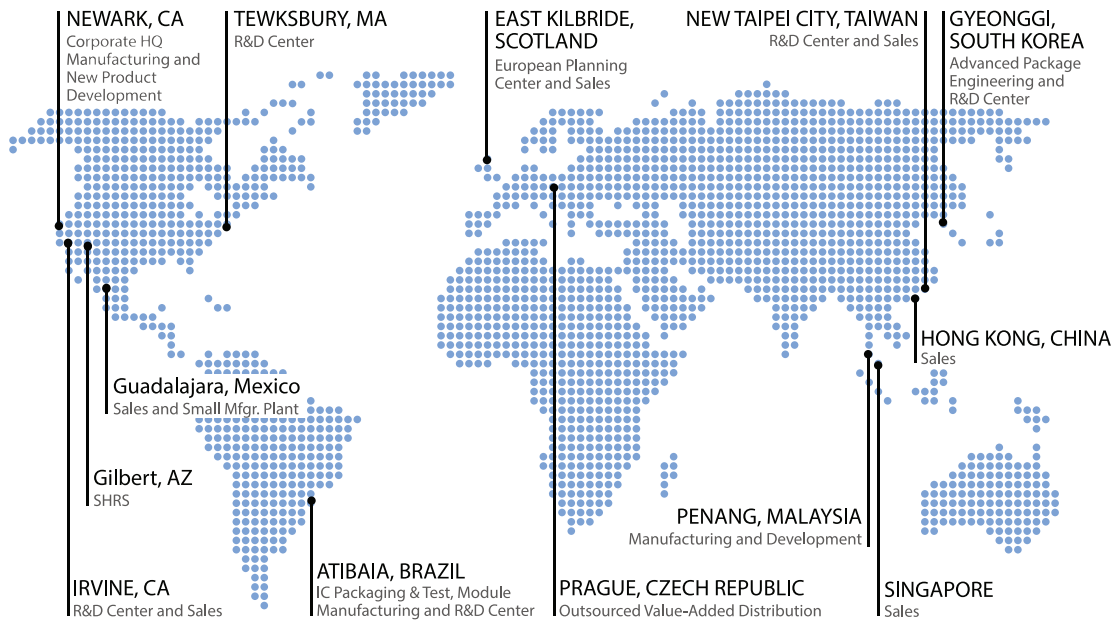

- 100% focus on delivering high quality products
- Leading-edge manufacturing equipment and processes

Application/Product Solutions

- Wide variety of products targeted to support unique industry requirements and challenges
- Ruggedized products for high-temp applications and extreme environmental exposure

SMART Global Footprint

SMART Modular's global presence and size translates to its customers in logistical expertise, component availability, and preferred pricing.

Focus on Industry Collaboration, Memberships and Partners

SMART Modular is a member of many associations, which enables SMART to help gauge, meet, and align with international industry standards in memory and computing. These collaborations are transferred to its customers so they can be assured SMART manufactures quality products adhere to industry benchmarks and specifications.
