

# EBV Start meUp

Boost your Ideas with Engineering, Component and Logistics Superpowers!

An idea is only as good as the team behind it! Successfully establishing a start-up requires outstanding engineering power, reliable supply chain services, extensive technology experience and a diverse partner network to market products. Do you need a team member that can bring in all of those talents? Then it's time to ask us to support your project!

Read about some of the amazing projects and start-ups we already work with in our EBV Blog start-up section here: [blog.ebv.com/tag/startup](http://blog.ebv.com/tag/startup)  
Visit us online for more information: [ebv.com/startmeup](http://ebv.com/startmeup)

We are the point of contact for start-up companies and electronic newcomers in the semiconductor industry. Contact your local EBV sales office: You can find us online at [www.ebv.com/locations](http://www.ebv.com/locations) or send us an e-mail at [startmeup@ebv.com](mailto:startmeup@ebv.com).

## IDEA

Your initial ideas is just as good as the product you bring to market in the end.

## PROJECT

Let's join forces and tackle challenges together!

## DESIGN

Our techies can add some serious design experience to your team.

## ENGINEERING

We are not your mommy!  
But we'll help you with every engineering problem.

## SOURCING

Stop searching for tools, prototyping hardware and electronic components – we already got you covered.

## LOGISTIC SOLUTION

You create it – we'll ship it. It's as easy as pie!

## PRODUCTION / VALUE ADDED SERVICES

10, 50, 100, 1,000,000? Whatever volume you need we'll handle it as fast as lighting.

## MARKETING & SUCCESS STORIES

Sharing is caring - we'll be shouting out your ideas to the world!
