Antenna Solutions for After Market Installations

LAIRD IN YOUR INDUSTRY

Nowadays the transportation industry relies on the very latest communication technologies to keep everyone safe and seamlessly connected everywhere. Whether by air, ground or sea, access to real-time data and always-on communication while on the road is critical. At Laird we know that incorporating wireless connectivity to transportation services is key for the customer experience. To accomplish this, fleet installers provide the service solutions required to incorporate wireless connectivity to different type of transportation segments based on customers' needs.

APPLICATIONS

- Vehicle Tracking
- Vehicle Location
- Wi-Fi Connectivity (Video and data streaming)
- Fleet Management

MARKETS

- Fleet
- Mass Transit
- Agriculture Transportation

After Market Installation Antennas

	Part Number	Number of Leads		3G/4G LTE - 698-960MHz / 1710-2700MHz		WiFi - 2300-2700MHz / 4900-6000MHz		2400-2500 MHz		4900-6000 MHz		746-796 MHz		760-870 MHz		806-866 MHz		821-896 MHz		890-9600 MHz		902-928 MHz		GPS - 1575MHz		MULTIBAND - 136-174/380-520/760-870 MHz		UHF - 380-430MHz		UHF - 430-520MHz		UHF - 450-470MHz		VHF		Mounting Style (Permanent/NMO)		No Ground Plane Required
