

INDUSTRIAL CONTROL

INNOVATIVE SOLUTIONS

Save on machine maintenance costs and downtime

TE offers solutions for all of your industrial control needs both inside and outside the cabinet.

UL - UL Listed
 RU - Recognized Under
 CSA - Canadian Standards Association
 * Industry/Mil - Meets product specific industry standards or Mil specs (see product page on te.com for more detail)
¹ May vary based on application and product selection
² Solves the same problems as the applied interconnect

FEATURED PRODUCTS

1

Industrial USB Connectors

- Minimize downtime during equipment transfer with secondary locking feature
- Support data transfer rates of standard USB 2.0 or the 10 times faster USB 3.0
- Ideal for harsh environments with either IP20 ruggedized or IP67 sealed designs

1

Terminals & Splices

- Reliable in thermally diverse applications due to high quality crimp / brazed seam
- Improve productivity and reliability through quick connection design
- Gain design flexibility and ease of maintenance with broad portfolio

1

Precision Resistors

- Gain long term application stability with ultra-low temperature sensing
- Minimize electronic noise with thin film precision resistors
- Reduce inventory cost with flexibility in lead-time/packaging

1

2

Dynamic Series Wire-Applied Connectors

- Suitable for low signal to high power applications with a broad range of versatile contacts
- Save time and money with a centralized modular wiring system
- Prevent mismatching with keyed housings

1

4

Heavy Duty Connectors (HDC)

- Lower applied cost with quick and easy assembly options
- Gain machine configuration flexibility by combining power, signal and data circuits
- Withstand severe environmental conditions with IP68 configuration options

1

7

Industrial Mini I/O Field Installable Connectors

- Obtain a Cat5e connection using a small and rugged industrial connector
- Save wire termination time with an innovative field installable piercing contact
- Ensure reliable connections in industrial and vibration-prone environments

2

M8/M12 Connector System

- Reach up to 10 Gb/s connections with a high speed rugged industrial connection
- Save time and money with a complete standard portfolio of connectors, cable assemblies and passive I/O modules
- Design for applications exposed to harsh environments and extreme temperatures

FEATURED PRODUCTS

2
3

Universal MATE-N-LOK Wire-Applied Connectors

- Achieve design flexibility and polarization with interchangeable contacts
- Improve reliability in high moisture environments with splash proof options
- Maintain ultimate safety with egg-crated, finger-proof design

3
8

Eurostyle and Barrier style Terminal Blocks

- Easy assembly and expansion with modular design and interlocking features
- Support repeated connect/disconnect cycles with robust clamping technology
- Gain design flexibility with broad product offering

4

Corcom Power Line Filters

- Meet emission standards with EMI /RFI protection
- Gain design flexibility with multiple termination options on high current power filters
- Solve challenges with custom design, testing and qualification capabilities

4

MULTI-BEAM XLE Power Connectors

- Enable ease of operation with hot-pluggable contacts (high power rated at 75 Amps/low power rated at 40 Amps)
- Lower transients with sequenced contacts for mate-first-break-last operation
- Achieve long system life with high durability (up to 500 cycles)

4
8

Circular Plastic Connectors (CPC)

- Mixed power and signal available in a single interconnect
- Ideal for harsh environments where mechanical shock, moisture and debris are prevalent
- Efficient field repair achieved by removable contacts and replaceable coupling ring

5
6

Relays

- Withstand extreme environments with high performance designs
- Design for delayed action with internal timer option
- Support system needs with various options from a single source

7

Industrial Ethernet Products

- Industrial Ethernet solutions ranging from 100Mb through 10Gb speeds
- Ideal for harsh environments with a secure, sealed interconnection
- Complies with major Industrial Ethernet protocols

9

Identification & Labeling

- Suitable for harsh environments using thermal transfer, laser printer or hand written technologies
- Supports standard and customized requirements with fully compatible product family
